

SURREY FIREFIGHTERS' CHARITABLE SOCIETY

The Surrey Fire Fighters' Charitable Society has been changing lives in Surrey since it was founded in 1994. We can proudly say that all of the money donated goes directly to helping Surrey's citizens. Our commitment to our community permeates all aspects of our work and is an integral part of the culture in which we work.

Our mission is to provide charitable programs that benefit citizens throughout Surrey and assists other charities within our community that have similar goals and objectives. The Society relies on volunteerism and as a result is able to operate with minimal administration costs, allowing for more funding to go right back into the community.
